Engagement isn't a perk. *It's performance.*

Disengaged employees cost the global economy \$8.8 trillion a year. The most engaged teams tell a very different story:

23%

higher profitability in the most engaged teams

59%

lower staff turnover in high-turnover industries

81%

lower absenteeism across the most engaged teams

Source: Gallup — highly engaged vs. disengaged business units, across 1.4M+ employees worldwide.

And the appreciation that runs deepest reaches past the employee — to the family they go home to.

70% of employees report higher job satisfaction when their employer supports their family. — SHRM, 2024

At heart, we're a family brand — children first, families at the centre, the grown-ups right beside them. We design the days that bring everyone together. **That's why Toddle is here.**

LET'S BEGIN

Let's craft something that *matters.*

From team-building days and annual celebrations to private parties
— and every celebration in between. One brand. One team. One
standard.
